EXPERIENCE

Techsara Solutions — 11/2025 — 01/2026
Junior Bench Sales Recruiter — Ahmedabad, Gujarat

- Sourced and marketed bench candidates for IT roles, improving client satisfaction and placement success rates by 25%.
- Coordinated placement opportunities with vendors and hiring managers, streamlining the recruitment lifecycle.
- Maintained and optimized consultant profiles, increasing visibility and engagement with potential clients.
- Built strong vendor and client relationships, contributing to repeat business and faster closures.

Way To Code Technologies LLP — 10/2023 — 04/2024
Full Stack Developer Intern — Ahmedabad, Gujarat

- Developed and deployed new features for web applications using HTML, CSS, JavaScript and React.js.
- Built responsive, cross-browser UIs with React.js, reducing page load time by 20%.
- Contributed to backend development using Node.js and Express, creating RESTful API endpoints for seamless data flow.
- Troubleshot and resolved frontend and backend bugs, enhancing overall application stability by 30%.

Oasis Infobyte — 11/2023 — 12/2023
Web Developer Intern — Ahmedabad, Gujarat

- Created responsive web applications with HTML, CSS and JavaScript, improving mobile usability by 40%.
- Participated in code reviews to ensure adherence to quality standards, fostering team collaboration.
- Assisted in UI/UX enhancements for existing projects, increasing user engagement metrics.

PROJECTS

Daily Habits Tracker | HTML5, CSS3, JavaScript | Live Demo · GitHub

- Built a mobile-first fitness and habit tracker covering daily workouts, habits, steps and drinks, with week and month summaries.
- Works offline in plain JavaScript, stores data in the browser, and exports PDF reports and JSON or CSV backups.

Customer Behavior Dashboard | Python, PostgreSQL, Power BI | GitHub

- Analyzed customer behavior data using Python (Pandas) and PostgreSQL.
- Created interactive Power BI dashboards to visualize customer insights and sales trends.

Habit & Sleep Tracker | HTML5, CSS3, JavaScript, SVG, jsPDF | Live Demo · GitHub

- Built a monthly tracker for up to 10 daily habits on an SVG ring chart, with a daily check-in flow, live completion percentage and a sleep log with average hours.
- Runs fully in the browser with no backend, saves data in localStorage, archives each month automatically and exports a one-page A4 PDF.

Restaurant Landing Website | HTML5, CSS3, JavaScript, React.js | Live Demo · GitHub

- Designed and developed a fully responsive landing page with dynamic menu components and interactive UI.
- Optimized for mobile and desktop, achieving 90+ Lighthouse performance score.

Dynamic Webpages / Virtual Assistant | React.js, JavaScript, REST APIs

- Built interactive pages using React components and external API integration.
- Created a basic JavaScript-based virtual assistant with natural language processing features.

Coffee Shop Multi-page Website | HTML, CSS, JavaScript | Live Demo · GitHub

- Developed a complete business website with product catalogs, contact forms and admin backend simulation.
- Implemented responsive design and cross-browser testing.

CERTIFICATIONS

- MERN Stack Developer, Way To Code Technologies LLP (Oct 2023 — Apr 2024)
